### Shelter's Notes

During their one-on-one visit, Lucy and her husband showed great compatibility with Sally. They were enthusiastic about bringing home a new companion for their current Frenchie, Charlie. Their previous experience owning a dog came through and it was clear that they know how to take good care of dogs.

### Shelter's Notes

David's visit went well. However, having 2 young children can be a concern as Sally may not do well with children. David also does not work from home, which may not be good for Sally's social anxiety.

### Shelter's Notes

Emily's visit went okay. She seemed impatient when dealing with her. Perhaps not a good fit.
